Skills

- C++
- Python
- Java
- Flask
- Html
- Css
- Bootstrap
- My Sql
- C#
- Asp.Net

Interest

- Cricket
- Listening To Music
- Movies
- Football

About Me

I'm Arsal, currently studying CS in PUCIT with an aim to establish excellent programming skills so that I can contribute effectively in this modern era.

Experience

Teacher Assistant *(01/05/2022 - Present)*

Currently working as Teacher Assistant of Data Structures & Algorithms and Web Development course.

Projects

Road2Door（FYP)
Road2Door is a food delivery application where vendors can meet foodies. We use location services which allow consumers to detect which vendors are nearby. They can immediately look up the menu they are serving and place an order.

EducateMe

EducateMe is an online learning platform created in Flask with MySQl as DataBase where students can sign up and create their accounts. It is a one-stop platform for students to view courses, track their progress and take assessments after they have completed the courses to evaluate their learning. Authors can also use this platform to create and edit their courses.

BROWSER
Made a simple browser using java which has capability to maintain history/favorites, move back and forth to webpages and hyperlinks were also added.

Educational Background

- **PUCIT** *(2019-2023)*
  Bachelor of Science in Computer Science
  Cgpa: 3.52
- **The Crescent College** *(2017-2019)*
  FSC Pre Engineering
  Percentage: 87%
- **Allied School**
  Matric
  Percentage: 90%
